

Heavy-Duty 180° Tube Bender with Indexing Handle Makes Tight Bends

For 1/4" to 1/2" O.D. tubing

- › Accurate and tight bends up to 180° in stainless steel and other tough metals
- › No crossing handles. Trigger repositions handle when both handles begin to meet
- › Rollers eliminate scoring of tubing and reduce bending effort
- › Comfortable and durable ergonomically molded cushion grips

Ratchet Wrenches

- › Open jaw ratchet design for fast/easy attachment
- › Great for tight places
- › Applies torque evenly
- › Durable construction
- › Comfortable grips

New Hi-Performance Tube Cutter

For 1/8" to 1 1/8" (4 mm to 28 mm) O.D. tubing

- › Lower profile swing radius - 4-1/4"
- › Retractable rotary style reamer
- › Lightweight die-cast solid aluminum body - lighter than similar cutters
- › Eliminates spiraling for clean right angle cuts
- › Abrasion-resistant chromium steel for accurate cutting and long life
- › Each tool is supplied with a spare cutter wheel

Deburring Tool

- › The rotary style blade is perfect for removing burrs from holes and edges
- › Large ergonomic handle reduces user fatigue
- › Enclosed handy internal storage cavity for storing extra blades
- › Ships complete with two heavy duty blades

Inner-Outer Reaming and Deburring Tool

- › Reams both inside and outside tube edges
- › Three hollow ground cutters
- › Tough die cast body
- › Clockwise and counter clockwise deburring
- › Comfortable grip

Manual Pre-Swaging Tool

- › Fast and easy way to manually pre-set ferrules onto the tube
- › Durable hardened steel for repeated presets
- › Separate tool is required for each size tube
