

# TurnPro™

## OPTIMIZE YOUR WORK FORCE

The TurnPro tool will automatically assemble two ferrule and high purity tube fittings to the manufacturers recommendation. This easy to handle, power house accurately measures 1¼ turns from finger tight and then automatically shuts itself off. A repeatable make-up every time.

Easily handles from ¼" to ½" heavy wall tube. It works on all configurations: elbows, tees, crosses, and valves.

## FEATURES + BENEFITS

- ▶ Lightweight and portable
- ▶ Consistent fitting make-up
- ▶ Data logging for Q.A.
- ▶ Fast and precise
- ▶ Reduces labor costs
- ▶ Simplifies overhead installation

## IDEAL INDUSTRIES

- ▶ Fossil and nuclear power generation
- ▶ Petrochemical
- ▶ Chemical processing
- ▶ Ship building
- ▶ Construction Projects
- ▶ Biopharmaceuticals
- ▶ Semiconductor

AVAILABLE TO RENT & LEASE FOR CONSTRUCTION PROJECTS

# TurnPro™

## CutPro™

Robust tubing cutting attachment provides an easy to use power driven tube cutter that makes fast, efficient clean cuts in heavy wall stainless steel tubing.

### FEATURES + BENEFITS

- ▶ Cuts tubing from 1/16" to 1/2"
- ▶ Interchangeable drive sockets firmly grip tubing for efficient rotation during cutting
- ▶ Reduces labor costs by eliminating manual tube cutting
- ▶ Easily trims tube ends down to 1/8"

## BendPro™

Operator may set desired bend angle for automatic bending or use touch button to set bend to any desired position by observation.

### FEATURES + BENEFITS

- ▶ Fast and efficient
- ▶ Computerized program allows for repeatable bends
- ▶ Portable
- ▶ Easily attaches to TurnPro
- ▶ Bend up to 1/2" heavy wall stainless steel tubing
